

CANTRONIC TO PARTICIPATE IN THE LARGEST BI-LINGUAL FINANCIAL EVENT IN NORTH AMERICA

Vancouver, British Columbia – October 17, 2007. Cantronic Systems Inc. (“Cantronic”) (TSXV – CTS) is pleased to announce that Cantronic will attend the Global Chinese Financial Forum (“GCFF”) – Toronto Conference on October 19th and 20th 2007. This will be the largest bi-lingual Chinese/English financial event in North America. GCFF expects more than 2,000 institutional and individual investors attending.

Cantronic is also pleased to announce that Mr. James Zahn, President/CEO will participate in a live webcam interview on October 17, with Mr. Greg Beckett, founder of Liberty Fund Management which owns Liberty Micro-Cap Gold Index and President of Richmond Club Co. Richmond Club is a media company that showcases companies that it feels, have excellent chance of out-performing the market over a 1-2 year period. These companies are showcased to its 1,900 members, through the internet and at investor luncheon meetings. Richmond club members are a mixture of brokers, fund managers, analysts and private investors. The interview will air on www.mn1.com through Dexterity TV, and will be seen by approximately 6 million investors worldwide.

“With the recent initiation of an investor relations program, Cantronic has been working on expanding our efforts to introduce our Company to the general public as well as the institutional investment community,” stated Mr. Zahn. “We believe our efforts will contribute to the enhancement of our shareholder value and with the support of our increasing shareholder bases, we will be able to achieve our growth objectives.”

About Cantronic Systems Inc.

Cantronic is a leader in infrared night vision technology, specializing in passive and active Infrared cameras, infrared illuminators, low light infrared sensitive CCD cameras and long-range night vision surveillance systems for demanding homeland security applications. Cantronic’s products have achieved breakthrough performance characteristics, including viewing distances of 800 meters for its active infrared night vision camera. Cantronic serves a rapidly expanding worldwide base of military, government, commercial and residential customers. Cantronic has also been approved by Health Canada as a Medical Device manufacturer and is working on using imaging as a diagnostic tool for breast cancer screening.

Cantronic, through its US subsidiary QWIP Technologies, Inc. (“QWIPTECH”), holds a worldwide exclusive license from the California Institute of Technology (“Caltech”) to produce and sell infrared detectors and sensors based on Caltech’s Quantum Well Infrared Photodetector technology. This technology, developed by the renowned NASA Jet Propulsion Laboratory in Pasadena, California, has many applications in defense as well as in the field of security and surveillance. QWIPTECH is currently developing an aerial land mine detection system for the US Army Research Laboratory. It has also been contracted by SELEX (formerly BAE Systems), a world-renowned leader in infrared systems, to supply infrared detectors for their Sigma Hunter large format infrared camera.

Cantronic is a Tier 1 issuer on the TSXV exchange, trading under the symbol CTS. For further information about Cantronic and QWIPTECH, please visit our websites at www.cantronics.com and www.qwip.com.
